## RECENT PROJECTS

**Textbook and Journal CMS**

It is a web application that converts a book in PDF to HTML then allows users to perform proofreading, annotation, quality assurance, and extraction of the book to LawPavilion Store.

**LawPavilion CRM SAGE**

It is a web application that allows users to have more control of transactions carried out on SAGE Software. It gives a more detailed accounting report of the ledger, trial balance, balance sheet, profit and loss.

**BuildSpec**

BuildSpec allows you to discover a comprehensive range of design elements, easily communicate with brands and manufacturers, and save, share, plan and produce a realistic design prototype.
